# The Broken Chain

*By Ron Trummer*

We little knew the day that  
God was going to call your name.

In life we loved you dearly,

In death we do the same.

It broke our hearts to lose you

But you didn't go alone.

For part of us went with you

The day God called you home.

You left us peaceful memories.

Your love is still our guide,

And though we cannot see you

You are always at our side.

Our family chain is broken

and nothing seems the same,

but as God calls us one by one

the chain will link again.

## **Hurrah**

Hurrah! Hurrah!  
We have won the war!  
The enemy we destroyed!  
At the bay! At the bay!  
The waters ran red!  
Dead bodies on the bay!  
Dead bodies in the sea!  
Victory is ours! Victory is ours!  
The chief we captured!  
Put in prison for life!  
Dance & sing and be merry!  
We have won!  
We have won!  
Eat and drink and rest!  
The war is over!  
We the victors sleep in peace!  
Rise early morn – raise victory flag!

High above the tower! At the bay! At the bay!

## **Garden**

Roses are red,  
Violets are blue,  
Lily the white princess,  
Jasmine the orange queen,  
Chrysanthemums so lustful to,  
Shoe flowers with Pollen dripping,  
Were some of the different variety.  
Of flowers that was seen  
In the garden so sweet  
The sunlight flashed all  
The multi colorful flowers.  
Jackfruit, papaya, mango,  
Banana, guava & orange,  
Were some of different fruits  
Trees that fed them – the household.  
This was our garden,  
And it's only our dreams.  
To think back and live the thought so real! Today!

## **Times**

Yes! These are times of a victory  
From evil-forces substantial,  
From good-days sustained,  
From bad-days a decreasing!  
Yes! These are the times,  
When young people are more  
Than old people who are neglected!  
Land or sea or foam, the young people thrive and  
Exist somehow!  
But since old, no movements, In the house,  
Blessing the young people to save them  
From wrong doers and evil forces!  
These are the times that we exist to leave  
Everything as it is,  
and breathe for a short while longer!

## Home

Far, far, away  
Is a home of mine.  
The best place on earth,  
The best place in the world.  
The best people live there,  
The people most loved by me live there.  
The people who know me most,  
Who listen to me & know the truth.  
There is no place,  
This is the only place.  
The best & sweetest of all.  
This is my home.  
We all of us are soon to disappear from everywhere.  
We are all very old.  
Our siblings and kids will really miss us all!

## **You!**

You are the reason,  
For what you are.  
You are the answer,  
To all the questions that arise.  
You are the proof for what you profess!  
You and you alone are  
The ultimate goal!  
The you in you have all the answers for your self-realisation!  
You are the answer to everything  
You are that important,  
You are somebody,  
You are indeed you!

## Family

A family is a unit in society,  
Social, religious and tactful to life-of-the times  
Abreast with the changing times.  
Aware and alert to the domestic,  
national and international happenings.  
Daily falling perfectly  
Within the prevalent  
Activities and system within.  
The social-circles of the society at the said times,  
Economically well-to-do,  
Within the family, more than  
One or two family members earning.  
Good status aware of prevalent prestige  
Respect among  
Social circles.

It's what each one aims for and dreams, that one day, hoping  
Everything goes well – towards such a goal!

## **Times**

Times are such that,  
We do our best to live,  
A decent good life,  
One has to be prudent,  
Or the game of life changes.  
One has to be honest,  
To himself and others,  
Or the life lived has no use,  
One has to be hard working and well informed,  
One has to be smart and keep pace with  
the ever-moving times,  
Such are the simple ordinary needs of society,  
A social, well-groomed,  
Intelligent and proficient one,  
Will of course will and have a good professionally fulfilled  
Life time, that will give a good example,  
To the less – privileged to do the same!  
Good luck!

# I

I am what I am!

The I in you makes you, what you are,

It is the Ego content of you,

Your I pushes and keeps pushing you,

To be I and not you.

I is the important very special part of you,

I decides how much and what quantity of you,

I also decides what of you are you are yourself,

I makes and puts you on the top,

high very high level of your position

You may be nothing, absolutely nothing,

The I in you keep urging

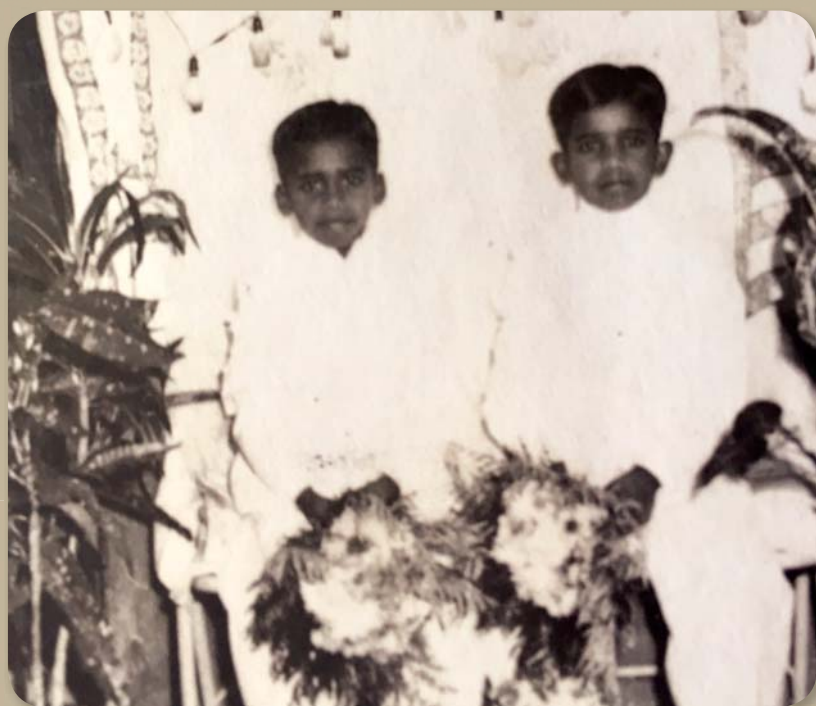

You to go higher and higher,

This is pride and may cause,

Many hardships!

Maybe – but even then – some remain so!

## **If**

If the sun stops shining,  
If the Moon disappears,  
If the seas and oceans swallow,  
Up the three-fourths of the earth,  
Then we perish as well!

We need to stop this war,  
of destroying nature  
And creation and the living.  
How can life go on?  
What shall man eat?  
How shall man live!  
Are the questions  
That arises shapely.  
Bringing back the sun's warmth,  
The Moon and its waning,

The saving of the earth and the ocean, mostly what all was  
destroyed,  
Is being brought back to life! Kudos – well done!

## **When!**

When you're feeling low  
When the sunlight hits your eyes,  
When your feelings down,  
When pull the cover and sleep a little more,  
When the morning coffee and breakfast feels a derge to have,  
When everything seems unnecessary and meaningless,  
When there is no use of talking,  
When you are in the room always closed doors,  
When you feel thus, then it means,  
Something is wrong!  
Cheer up! For good time are always, they keep coming,  
It's you who has to get hold of some good mood and feel better!

And get out of this derge feeling. Get up! Don't lie low,  
It's time to wake up and the normal, once more,  
Try – it's easy! Just a bit more.  
That's all – try...!

All of which disappears!  
You win in flying colors,  
But man can't win!  
Cause you are Motherhood,

Hang outs printed on hand outs,  
With trills and shrills of music,  
Criss-crossing flashy neon and disco,  
Lights and signs, lanes now dark,  
Now flashing colours on glass and stain glass windows!  
The street and studio speakers,  
Announce the “Roland of the Roses” opera,  
Near the house close by!  
The church bells chime the midnight mass, the clock strikes 10!  
About time move on move onto the 1<sup>st</sup> aisle.

In our youth force of tomorrow,  
Tomorrow may never come, without you!  
You are still enstilled in our hearts,  
Our very best friend and guru,  
Even today your teaching through,  
Your lectures, hammer and smash  
The truth from our people,  
Who only after referring to you,  
Seem to understand and know,  
How extremely important it is,  
To learn, understand and teach others,  
About the importance of being educated and know  
The truth about life and its elements.

## **Stress**

Please don't press,  
The stress in itself is a mega stress that plagues man,

By plaguing determination  
To overcome the depression the pressure the feverish,  
Haunting force of stress,

Your high speeding, totalitarian,  
Domination, escaping innocent soul  
And sweet hearts everywhere.  
Is a derge always away on a long-term healing process,  
Loving, people who overcome stress  
So stylishly and smoothly  
Like driving down to the countryside, talking a few days off!  
Like writing noble thoughts,  
To overcome the pain, trauma  
And depression, by Yogic and other Naturopathy ways  
of herbal and natural mineral filled,  
Health healing and stress freeing methods, simple,  
Basic truths to overcome the everlasting stress clouds dark  
and gloomy over the horizon of men's existence.  
For peace-of-mind is the only noble treasure,  
Which to excise takes a whole life-time of pain,  
Grief, sad and melancholy times.  
Peace-of-mind Oh! Peace-of-mind

How expensive to realise that you exist always at the most  
The most basic level of understanding

The most difficult and most worst problem  
That man experiences and that is – “stress”,  
The latest killer of good and glad times of joy  
And happiness filled days!  
Stress Oh! Stress,  
High time you turn around,  
A new leaf of existance,  
For the sake of Providence,  
Pray hard and hope positive thinking strong  
To fight this menace  
That spreads in such speed to destroy peace  
And peace-loving souls everywhere.  
Stress! Oh! Stress!  
Transformed into the strong determined,  
Courageous and strong-willed people who have  
Decided to fight this plague. World-over.  
By simple tranquilizers and natural  
And basic level humanistic thinking!

## Education

Its compulsory,  
Without proper education,  
Things in life cannot be understood correctly.  
Education is training the mind to activate  
The correct way intelligently,  
When a babe is born, there is a certain I.Q. intelligence born with,  
Things added with a matter, whatever that is taught has to be  
Learnt-completely and correctly understood.  
This understanding capacity is become as I.Q.  
i.e., common sense!  
What this I.Q., or common sense, gives us tremendous knowledge,

Therefore people with high I.Q. are also people who educate  
Themselves in all aspects of life.

It's a pretty sight, to be calm, cool, controlled and balanced,  
Angry worker is like a worm among roses blooming,  
Anger and hated go together to destroy the blooming roses.

## Music

It a medium of miracles,  
Its therapy alright,  
When sometime, melody & tune  
Seems to set everyone all right,  
It's a language with no borders,  
It's a therapy alright,  
When a certain, raga on tala,  
Lifts your spirits to ecstasy,  
At times to sublime frenzy,  
At times to such heights as in a panic attack,  
Like a mainly of sorts,  
Obsessed with the oppression of certain notes or beats,  
As a feeling of totally clinging,  
On to the piece because of the liking,  
The notes or beats, so  
Heavenly and gloriously,  
Joyful, happy and beautiful!  
Hands clapping!  
Feet thumping!

## **Promise**

If music be the food of love,  
Play on, thy lute resounds,  
A memory of old,  
An old love ballad,  
A time for us someday there will be,  
When we were one,  
As the only sun,  
Warm and burning,  
As we breathed in the chilly night breeze,  
Saying it's time to be under the covers in bed!  
The vicious night brings dreams that come true.  
Such as the one that said,  
Thy enemy the Capulets await,  
To pounce on us at any time, especially at night,  
In the middle of a lonely dream!

## **We!**

We are the reason for what we are,  
We are responsible for our own actions,  
We are what we are,  
You are different from me,  
I am different from you,  
We are in the same boat,  
We are born, we live, we die,  
We are for, "what we are",  
Our actions, words or thoughts,  
Are guided not by ourselves,  
But providence and fate and a supernatural power,  
Controlling everything,  
That has life,  
The heavens as well are ruled,  
By this power that keeps creating,  
Each one of us and our minds ,in all aspects,  
Of a life for us and everywhere were there is life,  
Again, again, & again, so –  
Take your stand,  
Take control of yourself,  
Don't go to pieces,  
Pull yourself together,  
Otherwise Providence, Fate or  
Power, will go on creating,  
We therefore have a reason and a purpose to live and  
a Right and duty to understand well and live!  
A complete life!

## 6 am!

Early morning sun,  
It's good to run,  
Remove lethargic feeling,  
Wake-up with the sun,  
It's more fun to know the sun,  
Hear the breeze blow mildly,  
See the sunrise from among the clouds,  
Smell the early misty wind,  
Blow the day leaves and twigs,  
The Robin she hops by,  
The Rabbit he crunches the radish,  
The sparrows and swallows fly by,  
The pigeons and quails long-tailed,  
Wisk past and settle on the rooftops,  
Only to fly by again – by hush and settle on the garden floor,  
The early morning squirrel,  
Has found her nuts to crash squeak by,  
The notice road: "Do enter"!  
Nature lives here!  
The next line reads: "Passersby, passersby,  
Come live in the fresh new ground with wind  
Whistling by fresh fish in the river,  
Crabs & snails living their life in  
Absolute peace under the sun and wind above  
To bring the rain in a slight drizzle.  
The air, the birds, the animals  
In the cool, cool breeze, and the water creatures and life:  
Are all insured!  
Thank you!"

## Sense

The five senses,  
Sight, Hear, Speech, Touch, Feel, Taste,  
Eyes, Ears, Mouth, Body, Mind, Taste, Heart,  
Are the ones that make up,  
A living, breathing human being.  
Without one of these senses,  
Man is a vegetable,  
How?  
This is where education, study  
Learning comes in handy at last,  
Cause without education,  
Man remains primitive and a savage,  
So, to make best use of these senses,  
Is to give yourself the willingness,  
Interest to learn,  
Then once the individual is inclined.  
The child is sent to school to  
Study & learn different subjects,  
Different topics, different projects of learning.  
Once the individual grasps the meaning...  
The Higher study or directly work or  
Study of a technical Qualification.  
A new chapter in the individual's life,  
A new life – style to keep in with times!  
A new chapter of working and earning at the same time.  
And life goes on...

Long, long-time ago,  
It was Thanksgiving day,  
She gave me her diary,  
And I wrote this way:  
“Yellow be the roses,  
While the sun is high,  
Hide in the shadow of the bushes,  
Or thy beauty will fade away!  
Thy smile is the most beautiful,  
Wait for me a little longer,  
I shall ride back to be with you,  
I will I promised my mother to carry you away!  
She awaits my return anxiously,  
Each day she sighs – my son, my son, come back with  
Your girlie to be your wife and my nurse!”

That as time passes by,  
We do move on and seem to be  
Someone else who we know,  
They may be dead or living,  
Somewhere we do know for sure,  
All rush hence onto the Sun,  
All pair up and carry on as ever,  
Nothing untoward has happened,  
Just for now we do live,  
Forget the past and future,  
Live for the present,  
Live, don't worry, only that  
We live happy! Awesome! Live!

Love is fine when you are mine,  
Blind as to find,  
Unbound to the end,  
As it is to you and to me,  
Peak and Height unknown,  
Many case and show concern,  
You and me, stern and steady,  
Carry on steadfastly,  
Believe, Understand and Listen,  
Value and Quality shown, to each other,  
Strong willed and generous,  
Sharing and cooperating totally,  
Give and take and show as we see,  
On the silver screen,  
Love is a box full of sweet chocolates,  
A bouquet of red roses,  
A giant pastry with cake candles,  
Burning brightly for,  
Happy days and jolly times,  
Come rushing by for you and me!  
As a flower blossoming and blooming,  
In past succession of the early  
Morning Sunlight!

## **Rainbow!**

The rains they had taken their toll,  
Very happy damage and loss of life,  
However! ..... A new lease of life,  
Did exist! .....  
These appeared on the horizon above,  
The blue, blue skies ... A rainbow,  
Land, over river, over sea, over ocean and desert,  
Violet, Indigo, Blue, Green, Orange,  
Indigo and Red stripes of colors,  
Across arched on the sky,  
The children on seeing this,  
Clapped hands and danced,  
The old bowed low with,  
Clasped hands, the Sun god,  
The camera's flashed and  
The photographers thrilled  
At this colorful scene!  
So beautiful!  
This is it, this is it, shouted,  
A crowd of young people,  
It's time to relax, rest and taste,  
The beauty of Nature and Creation!  
Life been lived,  
All over again still a very original life  
Re-lived to capacity:  
"Joy of Living"

## Smile

A smile a day  
Keeps worries at bay,  
The early morning cheer,  
Keeps the mood cheerful all day on,  
A smile a day,  
It's better than a groan each day,  
And each day you pass smiling,  
Time and days will take us for a long way,  
From difficulties and problems,  
Need not occur now all over again,  
No trace of sad and melancholy times either,  
When you feel a bit depressed or moody,  
Cheer yourself up a bit and smile,  
The time and days that come along,  
Will be joyous, happy,  
And Newly, hopeful of happy, happy moments,  
That will make you glad and cheer-up all day long!

## Story!

A story to tell,  
Of a day so swell,  
When the sun she shines so bright,  
Humming birds – eh singing,  
Swallows fly by to the eastward,  
Red robins they hop by in the spring,  
It's spring alright,  
When the sun she shines so bright,  
Starts the several springs of water,  
Pushing by the stream joining the river,  
Flowing down stream,  
Rafters and water sports guys go by,  
Wishing past over bolder huge and rocks sharp,  
With rushing forceful waters,  
Taking them along as far as,  
No one knows where,  
But to a good dry land after all,  
This then is the story I tell,  
Of a day so swell,  
When the rains come pouring down!  
The rains they stop, after a good respite –  
A lull all over the place,  
Speaks of all the terrible aftermath, sadness and tears,  
A joy of just being alive,  
Oh! Merciful, Oh! Merciful,  
Not again...not again...

A life full focus, aiming the summit,  
Of heartfull joy and happiness,  
Happy, happy times like a bed full of tulips and roses,  
Spread out under the sun or lime light of achieving,  
The very best possible,  
Peak of something that's full of satisfaction,  
And fulfillment of the ecstasy,  
Of frenzy, of reaching,  
A highest level of performance,  
At any time possible,  
Prescribed and Inscribed,  
On a "Golden Medallion",  
Mentioning the Achievement,  
"Excalibur extra-ordinaries Class I"

## **Step-up!**

When feeling blue,  
When spirits are down,  
When feeling low,  
When everything is dull,  
Pop-up a little courage,

A peck of gutty strong certainty,  
To face up to it until it hurts,  
A feeling good as the only way out,

When least expected,  
Feeling good there is for us,  
To wait, hope and wish for,

Because good times always,  
Comes rushing in all together,  
When everything is certain!

## Here

Here and now, just now,  
Here and there, somewhere,  
There is a time,  
There is a place,  
We are here, the time is now,  
To belong and be in the present,  
To take a stand, decide now,  
To find the way best of all,  
In the present be, right now be,  
When happy in the present,  
What can be more real,  
Than this!  
Look nowhere,  
Look no more,  
No, not better, for,  
Green Pastures, elsewhere,  
It's all in here and now,  
What can be more beautiful,  
When everything is alright,  
And be fine now!  
It's nowhere, but here  
Right here and now is nothing,  
But heaven on earth! So?

## **Love!**

Love is in the air, therefore love with flair,  
Good times this, so be fair,  
Love-swell, for each other well,  
So be fair and square, till the end,  
Breathing the "Air-of-love"  
With charming, cheerful flair,  
As wonderful, beautiful love come along,  
Remaining untarnished,  
In a stable of pause, peaceful love,  
As being fair always,  
With lot-of-fire for each other,  
You and me so being a symbol of,  
Love-sublime with bliss,  
Full joyous happiness! At Last!  
Somewhere over the rainbow,  
There is always a chance for you and me,  
Be free, be free,  
Of the stigma,  
For everyone, you and me,  
Be forever free.

## Christmas

It's Christmas, it's Christmas,  
Jingle bells, jingle bells,  
Santas here with gifts for all,  
On chimney tops, snowflakes fall,  
The Christmas tree, crib with babe,  
Plum cakes too, Christmas candles and festoons too,  
Colour, multi-colour everywhere,  
Glistening tree tops, children running,  
Here, there we hear everywhere,  
Carols and Christmas hymns and prepare,  
For the Mass!  
The clouds are white,  
The sky is blue!.....  
Reminds one of that night,  
When the tail star appeared,  
On the horizon to show us,  
The way rightfully for a very  
Merry Christmas to everyone!  
The babe lies wrapped  
In swaddling clothes!  
Laying somewhere far away,  
But actually for a good head on start!  
On this freezing snowy night,  
We bring you a blessing and wishes,  
Rushing in, to say, all internal conflicts of the mind;  
Of people everywhere!  
And to loving, joyous  
Peace and harmony with  
Wishes for each one!

## Love!

Love? What is this thing called “Love”?

Well, love is a many splendored thing,

It hems from many aspects, sides, wishes, and aspirations,

Love is also a multi-faceted thing,

The three magical words: “I love you”,

Has a feeling representing, belonging,

attachment, closeness, and part of the other person,

A boy/girl or man/woman love they will,

Always like each other very much,

Something common in them pulls them to each other.

Something that attracts more than anything else,

The love should be equal to each other,

Shared and understood well,

For the sake of each other,

An everlasting love,

Love can create a tremendous new feeling

Every other moment,

Like living love,

To know more of the other person,

Love means many things different,

To many different people,

There is no fixed criteria,

But all that love is:

“Love me like I love you!”

And, the game goes on!

On an opportunity of wellbeing!

## **Melancholy**

Mellow the music,  
Meaningful too,  
Wishing well and feeling well,  
Cherish to the desire of belonging,  
Happy not sad, the mood fine,  
Cooling calm, tears filling feel of joy,  
True high, almost satisfaction,  
Heart-filled love pouring forth,  
Solemnly and Serene, Ritual and/or Ceremony,  
Follow the flag and banner of  
Love shown thus, true and perfect,  
Attachment and urgency to rush,  
Unable to bear, fullness of Purity!

## **Respect!**

Respect the Deity who made you,  
You will bow to the authority therein,

You will wish for good things  
To you and older than you,

Respect the System, since then in society,  
You will be within the circle  
Of growing to be up fine,

Respect yourself well cause,  
Without you, the individual,  
Is absent from what it is to be,  
All that the world will do is Live-on!

So Live-on and be good,  
Feel better than ever and be true,  
For in truth lies the answer  
Of forgiveness and human  
Understanding of Life itself  
And the living will on itself carry on  
Splendid, wonderful and beautiful,  
As the time the world is found  
Spinning around the Sun!

## HOME

Far, far, away  
Is a home of mine.  
The best place on earth,  
The best place in the world.  
The best people live there,  
The people most loved by me live there.  
The people who know me most,  
Who listen to me & know the truth.  
There is no place,  
This is the only place.  
The best & sweetest of all.  
This is my home.  
We all of us are soon to disappear from everywhere.  
We are all very old.  
Our siblings and kids will really miss us all!
